

# Strategic Momentum at IOEMA Fibre Limited

**Wokingham, UK – 27<sup>th</sup> of October 2025** - IOEMA Fibre Limited is pleased to unveil its newly formed Advisory Board, bringing together global leaders in subsea infrastructure, system architecture, digital connectivity, sensor networks, and commercial/investment strategy.

As we accelerate the deployment of next-generation fibre routes in response to newly emerging demand corridors, while improving latency across a number of those already established, this board will play a pivotal role in:

- Navigating regulatory and technical complexity
- Forging strategic partnerships across multiple regions and sectors
- Ensuring infrastructure resilience in high-impact environments

This milestone reflects our commitment to smart, scalable connectivity — delivering robust, diverse, and flexible digital infrastructure where it's needed most.
